VOLUME 1

ABOUT US

The student council in the 2019-2020 academic year has been changed to TCET Student Development & Welfare Association (TSDW) which is mainly to broaden the scope of the earlier student council. This is mainly to consolidate the activities for better productivity, outcomes, and learnings. It is the students' apex body. All students' professional, and social bodies, and clubs will be working through this body

OUR VISION

"TSDW strives to organize various programmes to equip the students with competitive advantages and the potential to build a cohort for future leaders for global positions."

OUR MISSION

With Combined efforts of faculty members and students, give the student their best college experience in every aspect and try our best to make up for the lost time.

OUR CULTURE

Respect: It doesn't come from titles, it comes from conduct. Respect begets respect.

Ownership: Ownership is going beyond. It is not taking what organization lays out for you, as the only benchmark. Instead finding your own levels of the benchmark.

Performance: It is not just about what you are meant to do but also what are meant to achieve. The Output combined with the outcome. Always know why you are doing, what you are doing.
